- Integrity

## PROFESSIONAL PROFILE

Front-end developer focused on creating user-centered web experiences using HTML5, CSS3, and JavaScript. I apply agile methodologies and continuously train in designing functional and accessible interfaces.

## PROFESSIONAL EXPERIENCE

### ● Front-End Web Developer

#### LTV Co. — July 2024 - Present

- Collaborating on the development and optimization of pre-paywall page flows for multiple LTV brands.
- Translating design mockups and product specifications into responsive, accessible, and high-performance front-end components.
- Implementing dynamic user interfaces and flows using HTML5, CSS3, JavaScript, and libraries from the JavaScript ecosystem.
- Working closely with product managers, SCRUM masters, designers, and QA engineers in an agile environment to deliver impactful features.
- Participating in code reviews, refactoring, and technical discussions to uphold code quality and best practices.
- Managing tasks through Jira to ensure timely, organized, and high-quality deliverables.
